# An Appeal to Expand Georgia State Industrial College, Savan'ah

Atlanta Ga. Independent
11/3/21

To the Citizens of Georgia:

We are face to face with a great opportunity to expand the dear old Georgia State Industrial College. If we build a model school, besides having a preparatory, high school and college departments we shall have a standardized teacher—training course approved by the state. Twelve hundred dollars has been promised by the Rosenwald Fund and five thousand dollars must be raised by our people. Besides, we have a promise of twenty-five thousand dollars from the General Educational Zoard toward building a girls' dormitory on the condition that the legislature appropriates twenty-five thousand dollars and the people raise ten thousand dollars. So you see, that if we, the colored people, donate ten thousand dollars we shall get a sixty thousand dollar girls' dormitory.

The Georgia State Industrial College is now opening the opportunity for girls to board on the campus. Boys have had a chance for thirty years. Don't you think it is high time for the girls to receive some consideration? The opportunity is now open.

The Georgia State Industrial College has always stood for the industrial, intellectual, moral and spiritual uplift of the race. She is now asking simply for a larger opportunity to serve the people of Georgia.

We need fifteen thousand dollars in order that we may receive fifty-two thousand dollars. We want every man, every woman, every girl and boy to rally to this worthy cause. We especially ask the co-operation of the ministers, teachers, business men, fraternal orders, women's clubs and other organizations in Georgia.

Through the co-operation of the Commission of the Georgia State Industrial College and the State Department of Education we are fortunate in securing Mrs. Lydia D. Thornton, state supervisor, as field agent for the Georgia State Industrial College. She is hereby authorized to put on drives to secure fifteen thousand dollars for the above mentioned purposes.

All funds will be sent to the president of the Georgia State Industrial College, who will send you a receipt.

C. G. WILEY, President.
